Great stuff if you're ready for it.

By Wellington

The only negative thing I could say about this is that it doesn't say its not for beginners. For example, the company Homespun Tapes rates all their musical instruction DVD's as a 1,2,3 or 4; depending on difficulty. (4 being for advanced players). This book would, in my opinion, be a 4. I feel the book would have been more beneficial if Steve had shown maybe fewer licks, but explained more about them, such as the relation to the blues scale; perhaps, giving simplified versions the way David Barrett has done. Nevertheless, there is a tremendous amount of great blues material here that has the potential to take your playing to the next level.

Good, but no audio for Kindle version

By Amazon Customer

The licks are great, the book looks good, but be warned: if you buy the Kindle version, the audio will not work. I got the following message: "There is audio content at this location that is not currently supported for your device. The caption for this content is displayed below" on all my devices (android phone, macbook, android tablet, kindle touch). I'm not sure what device it will work on. Maybe the Kindle Fire.

Licks You Will Use!

By socrchik2000

This book is full of Go to Licks. Best of all Steve gives ideas to build on the licks & take them to another level.

One of, if not the best book out there on Licks.

Thanks Mr. Cohen.

P.S.

Some riffs use bending.
