An engaging and highly informative book

By Shaista Bharwani

For those of you who cringe at the fact that India's current political situation is extremely fragile, with a complete lack of responsibility among our politicians and almost no civic sense in most citizens, this is a book that will educate you on the role you can play in changing all of this.

We always wonder what little part we can play to help end all the corruption....this book will give you those answers. With a multitude of engaging graphs and figures, Jay Desai's 'Accountability' will draw you into every chapter, making you more conscious about the current scenario, the possible future India and how you can involve yourself in the fight to make India's government more efficient and liable.
