Great read!

By jennifer schultheis

Claiming Hope is book two in the Wolves of River's Bend series and totally worth the read. I've been looking forward to this book ever since I finished Nikki's Fated and I gotta say it definitely lived up to my expectations. Suzette Rose Cauler has captured my attention with her impressive characters and attention grabbing storyline. This book is well-written, the characters are fully developed, and this story contains some serious heat between the characters. I can't wait to see the next book in this series.

Suzette has captured my heart and soul

By heidi

I was kindly gifted this book in exchange for my honest opinion and a review.

After reading Nikki's Fated i thought that Suzette certainly could not capture my attention as much as she did in her first book WRONG with this book Claiming Hope the second in the River Bend series i was up till 5.45am i Loved it that much,

Hope Davis has kicked her cheating idiot husband out with divorce papers following soon after, now she hopes to start a new life for herself and move on to something or someone better. But Hope has forgotten something vital and that is how to live. Whilst on a trip to visit her sister, she meets the most delectable striking men ever, brothers Adam and Levi Black, When they save her from being attacked. Hope decides to

take a chance after too many years of playing it safe, Hope indulges herself in the most incredible night of pure unadulterated passion with the brothers, before they reveal a secret to her and it not only scares her but terrifies as well.

They are not just both wolf shifters, but she's there's their fated mate.

The brothers both no that fate had outdid itself and some more when it brought Hope to them both. She's simply perfection for them, and they will do anything at all to show her what true and lasting love feels like.

But life isn't all that easy in this shifter territory of River's Bend, and Hope she is really uneasy. Can Adam and Levi protect there fated mate from these criminals hunting her and win her heart for keeps?

Will Hope ever learn to find the courage to love again?

I love Adam and Levi they are both so determined and strong i loved how they were both on the same page from the very beginning. And Hope she is a joy to read and great heroine and she certainly has an independent streak that runs deep and so doesn't want listen to anyone that tries to change her mind... or does she to me i think some things did really resonate with her. I really felt close to Hope being an introvert myself i can totally get what she was feeling and what she goes through.

It was great to have some interaction with Nikki as well and knowing she is still very much in love with her mates.

How Suzette has created such an amazing town as well is beyond me she has covered all bases in her books which makes you fall even more in love with her style of writing.

can i add how much i loved the ended We are not just left with wondering what is Ulric truly up to? we are left with Hope's scream of Joy ;) (no spoilers but its really good news)

A well deserved 5 Out Of 5 Hearts From Cariad Books

Claiming Hope

By The Book Chick

Once again, I enjoyed visiting the Wolves of River Bend. I loved Adam and Levi in Nikki's Fated but absolutely adored them in Claiming Hope. They were strong and dominant, but also very sweet and caring. They also were both fully on board with wanting to claim Hope...only Hope wasn't exactly certain she wanted to be claim. Life, in the form of her own body and her cheating ex-husband, had dealt her some serious blows and she was struggling with trust and confidence issues. She essentially secluded herself from the world, trapping herself in a protective bubble. Thanks to her nagging mother, and sister, Sarah, she got herself out of her self imposed rut and visited River Bend to see her sister after two years. Hope's arrival in River Bend brings her all kinds of unexpected and shocking revelations. The first being that her sister is not just with one man, but two. Two very virile and sexy men who have put a love-filled and satisfied glow on her face. As Hope is just beginning to accept her sister's reality, she is unaware that she has caught the attention of her own pair of men -- Adam and Levi Black. On a night out with her sister and her men, Hope's scent immediately filters to the Black brothers. They instantly know that their mate is in the vicinity and they seek her out. Unfortunately for them, Hope is not interested ... well sorta ... in their flirtations. Oh, Hope is definitely physically attracted to the Black men but her past is holding her back like an unyielding tether. After a sequence of events, the major being a threat to Hope, the men come to her aid and ensconce her in their home to care for her. Although the attraction between the trio is potent, Hope still resists. Until they all

reach their breaking point and give in to their passions. *Sigh*...if only it were that easy, right? The men are fully on the Hope is our mate. We must claim her train. And Hope is clearly on one going in the complete opposite direction: I don't trust men and this was only one night. Thus begins the push/pull nature of their relationship with Levi and Adam pulling Hope toward them and her pushing them away.

Cauler does an excellent job throwing in situations where they have to rely on one another -- thus exponentially expanding Hope's trust and even her love for the men. The action was a bit more intense in this one because there was a ramping up of action with the rogue wolves and Hope's very own rogue wolves who want to do her harm. Levi and Adam are as protective as any other alpha shifter males but their stubbornness almost drove Hope away from them as they were trying to protect her. I love how she "got them back" and got exactly what she wanted: two mates.

I also enjoyed seeing a bit more from the Ulric character who was only mentioned in Nikki's Fated. He was vile and evil and I just know he will bring dark times to come for the pack. I can't wait :).

The Wolves of River Bend is a very enjoyable series and I would recommend it to anyone who is in the mood for a sexy paranormal romance.
