DRESS CUTTING -- INSTRUCTIONS AND ILLUSTRATIONS FOR SEWING 26 VINTAGE 1930S FASHIONS BY MARGARET RALSTON PDF

Originally published in 1932, this rare sewing book teaches the block method of pattern making. The book begins by explaining how to easily make a foundation draft pattern of a simple jumper. Using your own body measurements, you're taken through the pattern making process and then you learn how to use your customized foundation pattern to make: **SKIRTS:** flared skirt, costume skirt, flared skirt with hip yoke, costume skirt with hip yoke; **BLOUSES:** simple blouse, blouse with shoulder straps and front fullness; **DRESSES:** coat overall, dress with skirt flared from waist line, dress with skirt flared from hip line, dress with hip yoke and flared skirt, dress with godet skirt, dress with hip yoke and panels at back and front and circular side pieces, dress with flounces, dress with flared skirt 54 inches wide at hem; **SLEEVES:** fitted sleeve with dart, fitted sleeve with gathers at elbow; **COLLARS AND CAPES:** detachable polo collar, rever collar, roll collar with points, simple round collar with pointed fronts, bertha collars, cape with shoulder dart; **PLEATED SKIRTS:** yoked skirt with front pleats, four-gored skirt with inserted pleats at seam; **GODETS:** simple godets, godets with shaped top. Over 60 diagrams explain the pattern making process, with an extra chapter on adapting the block pattern. This book is complete with all of the details for creating early 1930s fashions including this era's distinctive fashion characteristics of looser-fitting tops and skirts that closely fit a woman's hips. Genuinely classy styles that can still be worn with grace and elegance today. Because the author was a Lecturer in Dressmaking with the National Society's Training College for Teachers of Domestic Subjects, you can be assured you are being taught by an expert in 1930s fashion sewing. Sample fashions and illustration images are shown at the top of this page.

a terrific resource

By Sarah Jacobs

This book is deceptively skinny but it is packed full of really useful directions for drafting your own 1930's style dresses. When I first opened the package I thought, "Oh it's just a skinny book, perhaps I over paid."

But after a careful read I fell in love with this little treasure. I have been working on teaching myself pattern drafting and own several drafting books. this books just makes it easy to figure out what to do (and to extrapolate for other styles)

I am currently making myself a dress based on directions from this book. It's a pleasure to use.

I would buy this book even if you were not particularly interested in 1930's fashions because the directions

are just that good and that clear.

Demystifying 30s dress construction

By Dorothy Vernon

One of the things I love about 30s fashions is how they employ yokes, flares, panels, and pleats to flatter the figure. This complex construction yields deceptively simple lines with timeless sophistication.

The complexity of 30s construction makes it very difficult to replicate 30s styles using commercial patterns because fit is imperative. I find it very difficult to figure out how to make alterations where my measurements differ radically from the so-called norm.

This book shows how to create your own 30s patterns, based on your own measurements. Interestingly, the preface calls the methods presented "Scientific Dressmaking" -- and I can see why. The instructions take your measurements, then proceed step by step for each pattern. While I haven't had a chance to use the instructions yet, they appear to be straightforward and simple to follow.

Good book for basic styles

By retrosew

This book has some excellent basic 30s dress styles (including a beautiful long hanging formal dress) and some skirts and different collar designs. The first few chapters describe in detail how to construct your own block and how to use the block in constructing tailored clothing from the patterns.

Great book, probably best for the intermediate sewer.
