Simply Amazing!

By Katy

I'm an elementary teacher who is currently a stay at home mom to a eighth month old and two year old. I purchased this book to help fill the void of creating lesson plans, without actually having to create them myself ha-ha. Who has the time? (Besides the author, who is a super mom).

Anyways, this book is amazing! I really enjoy the layout and how it's sequenced. It flows nicely, is easy to follow, and offers many substitute activities if and when needed. My two year old definitely likes certain activities more than others, but I love exposing him to a variety of fun creative play.

This is a MUST buy for those of you who feel any guilt that your not doing enough with your kids, but truly don't have the time to create activities on your own. That was me! These activities are quick, easy, and the best part... FUN! Thank you Jamie!

Easy, fun and meaningful activities!

By Nicole Ellis

The list of supplies makes it easy to make sure you have everything you need "on hand". My 4 year old has enjoyed all of the activities that we've done together from this book - some are gross motor, some fine motor - all are "good" for his development, fun for him - easy for me!! This book is a great resource of activities to do with your little one!

Full of simple but totally awesome activities!

By Craig Louis Citro

This book is full of simple, awesome, completely do-able activities. I love that most activities can be done

with almost no preparation - and they appeal to a wide age range, so both my daughter and son have a great time doing the same thing. This makes having fun with your kids super easy and attainable for anyone!
