A dead god.

A dying world.

A girl never meant to be sentient.

Siriala is dying. A poison is spreading throughout the planet and none know how to neutralize it. Finder, working in King Tamblin's castle kitchen most of her life, has never spoken. A child of questionable parentage, Finder is an orphan assigned to perform duties nobody else wants.

While others plan intrigue, murder and invasion to escape the poison's effects, Finder watches all in mute acceptance. Will she be the key to Siriala's salvation, or will it die about her, without knowing why?

Not a Complete Story

By R. J. Thomas

"A dead god.

"A dying world.

"A girl never meant to be sentient."

This is the book description. None of that is actually stated in the book, though the second one is probably true. The first and third are not even hinted at. The person on the cover of the book, who appears to be a dryad, does not show up either.

So, what's actually in the book? The entire book is a series of quick cuts. We get first-person narration from a slave nicknamed Finder. She is amazingly beautiful, can mysteriously read and speak any language, can [multitude of Mary-Sue powers redacted to avoid spoilers], and is tragically mistreated by everyone she meets. She is also an utter doormat. A typical scene with her is someone telling her to do something, which she then does, and then someone hits her and she has to go to the doctor again (she goes through maybe 3

acres of bandages in the book). We also get quick third-person scenes from characters in three countries as they scheme about Finder and each other. Scenes are conveyed almost exclusively through dialogue, with basically no description of the scene or the people. The characters talk endlessly about Finder, and the scenes flip back and forth through time and space with only the character names to help you place them. Interesting things fail to happen.

Bottom line: this is not a complete story. This is a book almost entirely about introducing characters to star in the sequel, and the characters failed to engage. The cast was headed by the obnoxiously perfect heroine, and of the rest, not one character has an arc or even much of a description. The heroine does not get an arc either; the closest we get to character growth is the fact that by the end of the book, the heroine thinks she might start thinking about standing up for herself one day, but she has not yet gotten around to it. The plot is driven, not by the world-shattering events in the description, but by a series of evil powerful women (and the occasional man) who beat the heroine and send her to her next set piece. I would skip this this one, if I were you.

Interesting but choppy

By Pen Name

The author did a good job of creating an interesting protagonist but the book begins to become very choppy toward the middle portion as three independent storylines are developed independently. Often times you will get only a paragraph or two before jumping. Then just as the stories converge the book ends. I also feel like there are too many characters for a casual read, i ended up backtracking a lot to find out who was who and doing what.

By NIK

Terrible book that jumps almost to parallel universes that all somehow exist within the same world. Imagine one universe with middle ages type of intrigue that suddenly collides with a world of science fiction with angels that then collides with a world of modern technology without any explanation on how each world coexists with each other without the middles ages world finding out. Yeah a little too stupid and unbelievable in the bad way. I feel like each story of the parallel universes could have been an excellent story on their own, the mixing of the worlds did not mesh well and kind of ruined what started out as a good story on social class and self-importance.

I don't think I'll ever read another book by her sadly as this has left a bad taste in my mouth.
