great map

By A. Correa

i am a truck driver and run daily routes all over l.a. county and this map has helped me tremendously. it is 100% accurate and easy to follow. my only complaint is that the pages dont hold up for everyday use. a few pages from my map are missing because they tore off from the binder.

Indispensable

By Ezra Horne

I always have this with me in my car.

It helped me learn this city 10X faster then my GPS assisted friends. Now I know my way around I rarely reference it, and I have a smart phone, but that often fails. I can make a route with Thomas Guide maps much faster.

Thanks Thomas guide!

If you can't afford GPS or a fancy phone, having this book in the car will surely keep you from getting lost.

By Jaime

This got me through my first few years in Los Angeles, before I could afford GPS, and before it became standard on every mobile device. I suppose this sort of book is outdated and less useful now, but I still keep it on our bookshelf in the house, just in case. It's not something I keep in the car anymore. If you can't afford GPS or a fancy phone, having this book in the car will surely keep you from getting lost.
