ONE MILLION TATTOOS BY JIAN YI PDF

Once exclusive to sailors and tribal warriors, tattoos are now all the rage with everyone from the rock-n-roll crowd to groovy grannies. Discover the wild world of tattoo art in One Million Tattoos: Designs to Create and Color. This unique title features a full-color book, showcasing the biggest collection of tattoo art ever compiled, bundled with computer software that gives you the chance to create well over 90 million tattoo designs. Unlike getting a tattoo, creating a tattoo is painless! The companion CD includes easy-to-follow menus that allow even novices to design intricate, attractive tattoo art. Choose from classic old-school designs like sailor banners, "I Love Mom" hearts, and leaping panthers, or get inspired by ancient tribal designs and New Age looks. Mix and match to your heart's content! Print out thousands of combinations of original tattoo designs to color and incorporate into your own tattoo art!

It's an okay product, but def. not ONE MILLION tats in here

By Pauline George

The book has all the flash in it and the CD allows you to customize the flash sheet, by letting you choose the ones you want on it. Although it allows you to do that it is not ONE MILLION tattoos, it is the same set of flash you just change the arrangement of it.

8 of 9 people found the following review helpful.

It is interesting.

By CamiD

I bought this book thinking this will be really nice for someone like me who is artistically challenged. It is a really nice book there are a ton of amazing drawings in it that can really give you a great idea on what to make your next tattoo look like. I would say that the only downfall is that you have to already have some kind of an image editing software on your computer to really use the cd. I do not really have anything on my computer like that so all I can do is just look at the images and rearrange them but it definitely does give you a starting point and then you could at least take a potential idea to an artist. I do really like all of the images in the book though it gives you a very broad range of ideas.

tattoo design software

By Robbie

This product did arrive fast, but it lacked in quality. It is not a tattoo 'creator' or 'designer'. It is simply pick and choose from their clip art. You cant even choose where to click and drag images. They are low resolution and not detailed. The only control you would have is to choose the color but there was a problem with the software I received and it did not function properly.
