Review

Praise for the First Edition

Reading the chapters in this fine anthology will make you smarter and better able to cope. First, they will inform you and enrich your life. Then they will give you tools to allow you to sift sense from nonsense about all manner of claims and assertions that swirl about without much intelligent evaluation or response. This is your antidote to those. (Kendrick Frazier, editor, *Skeptical Inquirer: The Magazine for Science and Reason*)

A 'how to' book for apprehending nature in its true grandeur. (Ann Druyan, co-writer, Co-Writer of the *Cosmos* TV series and wife of the late Carl Sagan)

Dr. Farha has never had any misconceptions about how the universe really works. His book will encourage and help those for whom questions have arisen, and will give them points upon which to base arguments against the ever-growing dumbing-down of the public. We must awaken to this danger and oppose it. (James Randi)

About the Author

Bryan Farha is professor of behavioral studies in education at Oklahoma City University. He received a doctor of education degree in counseling psychology from the University of Tulsa. A scientific and technical consultant to the Committee for Skeptical Inquiry (CSI), his work in combating deception has been recognized by CNN, TIME.com, The National Geographic Channel, and A&E.

Pseudoscience and Deception: The Smoke and Mirrors of Paranormal Claims

By Robert Rucker

This is an edited book, but each of the essays are well written and insightful. The book could be used as a very useful references in a course on scientific ethics, or for anyone who wants a good set of guidelines for

making or approaching rationale judgements.

0 of 0 people found the following review helpful.

Great resource

By Caleb Lack

This is a great book and an excellent resource, both for those just beginning their journey in skepticism and for old hands at thinking critically. It brings together many of the top people in this area to contribute small but insightful works.
