Overpriced Book

By Manu Agarwal

I believe this book is overpriced, there are several other books which are at par with this book for fraction of cost.

5 of 6 people found the following review helpful.

No online content

By Samuel Zneimer

Didn't have online content, so that was disappointing but still needed that book for class probably should have returned it

3 of 4 people found the following review helpful.

Book came with used access code

By BC

I paid much more for this new book, so I thought there would be no problem with the access code. But when I tried to use it the access code had previously been used. So I had to spend 30 minutes online with Amazon then 50 minutes on the phone with the publisher. Who said the access code was used a few months before I purchased it. Ultimately Ryan at the publisher got me a new code so hopefully when I go to use it all will go well.

The low rating is due to receiving a used access code.
