A Plea for thee Preservation of Wild Places

By Kexy Twosign

Henry Williamson came home from World War One a damaged man. He withdrew to England's West Country and spent much of his time observing a small river and its inhabitants. An otter became his focus. I do not know personally if any of this is true, but that is the story.

The book he wrote about Tarka, a young male otter, is in many ways a painful document describing the risks and dangers of Tarka's life. There are many idyllic descriptions of the joyful fun of being an otter, but no happy endings here.

This summer I have been 'raising' a young raccoon. He is gradually being returned to an environment which includes a busy highway and angry people with guns. Observing him has been a huge delight for me, as I'm sure Tarka was to Williamson. Nature is cruel.
