There are NOT many people that I would recommend for a good read. However this isn't just a good read, it's a tool that is needed on your life's journey that will help you advance to the next phase of life. No matter what point in your life you decide to launch out and discover YOU, this book will help you get there. Dr.Fizer provides the complete package which also includes great music to assist you as you ponder your 365 moment of the day. As you take each day you can "think on the things" that are for you for that day while listening to his soothing sounds of comfort, peace, excitement, and fun. The 365..

By MrJasonCSmith

The 365 is so much more than a book you read from start to finish without stopping. It is truly a daily "thought companion" that will very simply, yet very powerfully, guide your attention to the places we most often fail to look for our truest answers!

To me, the most profound thing about the 365, is that the most profound things (intentionally) are not always what's written in it's pages, ...but more so in what it's pages are constantly provoking YOU to think, practice and become! It is truly a "thought guide", that will help you break out of years and years of destructive

thought habits... some you may not even realize you have... if you will allow it...
