For any level of exam, and for all stages of life

By A Customer

This book isn't about the tricks and "secrets" that other exam prep guides offer, helping you to "game the system." (Those sorts of things never really work out.) No, this book offers a practical approach, focusing on real things that can be done, not only in the exam itself, but also (and more importantly) in the days and weeks leading up to the exam to give yourself the most effective and efficient study life. And, to be honest, I see this as not only a guide to exam taking. It is also a great guide to approaching any number of important school, work, etc. events in your life. A necessary read for people of all ages and phases of exam-taking.

New tips, unusual

By Amazon Customer

Although written by a Brit, it's clearly aimed at both the US/UK markets, which is a good thing for sure. The book has lots of unique ideas that I'll be using, it was easy to understand, and it's motivated me to try new things. Great job!

A+ Advice

By Amazon Customer

Not what I was expecting. This guide is 'holistic', making it different to anything else I've read. It contains genuinely original ideas. I'm now feeling a lot more relaxed about my midterms.
