Medical scribing essential to medical practice survival

By Peter J. Canney

This is an excellent basic training tool for medical scribes. We are currently training and cross-training all staff as scribes. Survival in an EHR environment demands that the massive added workload imposed by EHR be removed from physicians, and scribing goes a long way toward achieving this goal.

2 of 2 people found the following review helpful.

Not too impressed

By Cheryl A. Vineyard

I was looking for a textbook to teach scribing for electronic health records. The material is okay, but not really adequate for a college course.

1 of 1 people found the following review helpful.

Meh...

By JMoore919

Delivery was speedy, but I expected the book to be more about the actual documenting rather than the exam itself. I'm familiar with how my doctor examines and prescribes medications- I need to learn more about documentation.
